

# Adding a Bead to the First Part of a Self Closing Mock Ring © Jane Eborall 2013

Work the first part of the SCMR and the ring as the pattern states

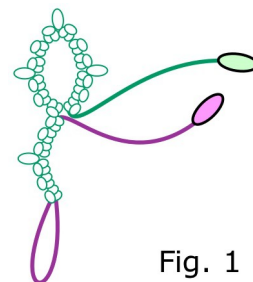

Fig. 1

To the starting loop add a safety pin or paperclip to hold a space FOLLOWED by the bead you want in the centre.

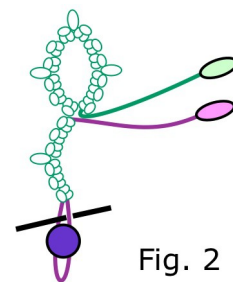

Fig. 2

Take the working shuttle through the space to the right of the bead.

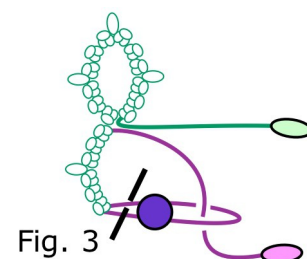

Fig. 3

Tighten the thread and continue making the second half of the SCMR.

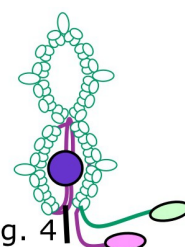

Fig. 4

Remove the pin and lock join to the space left by it's removal.
