This little design could be used as an edging, a bookmark or a bracelet.

Abbreviations

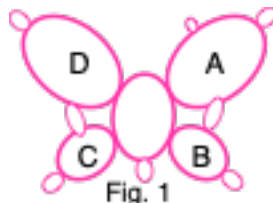

SCMR	self closing mock ring	LCh	lock chain	SS	switch shuttles
Cl	close	vsp	very small picot	+	join
SLT	shoe lace trick				

Materials required - 2 contrasting plain colours of size 20 thread.

Hints - when making a vsp on a LCh use a paper clip to make the picot. When joining to a previous SCMR take the join over the picot and lock chain.

To start - using a weaver's knot tie ends together and cover one end in the first part of the SCMR. Leave the other end to hide later.
