Finished doily measures 10" when worked in a size 40 thread.

Materials and skills required 2 shuttles for some rows, thread. This is a basic rings and chains pattern with spiral chains.

Abbreviations

R	ring	Ch	chain	SS	switch shuttles	Lj	lock join	+	join
T&C	tie and cut	Cl	close	DNRW	do not reverse work	Fp	false picot		

SPCh   spiral chain - make the first half of the ds five times then pass the shuttle underneath both threads. So for SPCh 6 x 5 make 6 sets of 5 half doubles. See this link for further help.

Note – for those who prefer front side/back side tatting the text in *italics and red* indicates where the worker needs to use the second half of the ds first.

Round 1 (centre) - shuttle and ball.
R: 2 - 2 - 2 - 2 - 2 - 2 - 2 - 2 - 2 - 2 - 2 - 2 (11 picots) Cl RW leave a Fp and continue to

Round 2
* Ch: 10 continue to
SPCh: 3 x 5 continue to
Ch: 1 - 1 continue to
SPCh: 3 x 5 continue to
Ch: 10 Lj (to next p round 1)
Repeat from * 11 times then T & C to start.

Round 6 - shuttle and ball
Join both threads to the picot on the long
chain/spiral chain with the back of the tatting upwards.

Round 7 - shuttle and ball
Join both threads to a picot on the last round and make a chain of
Ch: 5 - (5mm) 4 - 4 - 4 - 4 - (5mm) 5 Lj (p on round 5)
Repeat this chain all round joining to p's on round 6 or 5
alternately. T & C
