

Introduction taken from Gina's blog post on April 18th, 2003.

“Wow! Easter snuck up on me! Here's a bunny edging I designed a few years ago.”

Abbreviations

R	rings	Ch	chains
j	join	clr	Close ring
p	picot	vsp	Very small picot
RW	Reverse work	ds	Double stitch
CTM	Continuous thread method		
BP	Big picot (used for bunny feet). I make them 1/2 – 3/4 inch in length		
VBP	Very big picot (used for bunny ears). I make them 1 – 1 1/4 inch in length		

Bunnies in a Row

Wind 2 shuttles CTM (continuous thread method). You might only want a couple yards on each shuttle until you try it out.

I use a paper clip or safety pin to anchor that first chain stitch. I'll remove it when I join there.

Ch 2ds, vsp, 10 ds. rw

R 11 ds, j to place where safety pin or paper clip was in the first ch (in subsequent bunnies, this will be a vsp join), 2 ds, BP, 2 ds, BP, 2 ds, VSP, 11 ds, clr, rw

Using ch shuttle for the ring, R 7 ds, VBP, 3 ds, VBP, 7 ds, clr, do NOT rw.

Still using ch shuttle but as the ball thread now, Ch 10ds, vsp, 2 ds, j to p on last r

At this point, you are ready to start a 2nd bunny. If not, just cut, tie & hide ends. Turn up the p for the bunny feet so they are pointing loop up, like the ears.

If you are going on, leave a space of about 1/4 inch and make a lock stitch. Repeat from beginning, but at the very first vsp in the ch, j to last bunny ch instead.
