

[Click here](#)

**Materials required** 15mm (slightly larger than 1/2") four hole button, number 20 thread, white size 11 seed beads, 5 size 11 red seed beads (mouth). 2 slightly larger beads (eyes). Add 20 white beads followed by 2 black beads (eyes) followed by 8 more white beads to the ball of thread. Wind 2 1/2 yards off the ball & onto shuttle (this will be Sh2). Pull off another 3 yards from the ball, cut and wind onto a second shuttle (this will be Sh1). Before starting check that the 20 white beads are on Sh1 and the rest on Sh2. More white beads are required to add to picots.

**Abbreviations**

R	ring	SR	Split ring
vsp	Very small picot	Cl	close
LBP	Long beaded picot	MB	Move bead along core thread
Sh1	Shuttle 1	Sh2	Shuttle 2
MB	Move bead along core thread	SS	Switch shuttles
Bttn	button		

**Joining to the button on the second half of the split ring or between split rings.**

Work to joining place.

Pull loop up from CLOSEST thread through the hole.

Take same shuttle through the loop.

Tighten to allow loop to sit snugly on top of the button.

## Head

R1: 2 LBP (5 beads) 2 + (1<sup>st</sup> hole in bttm) 4 CI

SR2: 4 / 2 MB (on Sh2 – eye) 2 CI

SR3: 2 MB 2 / 4 CI

SR4: 2 MB 2 / 4 CI

SR5: 2 MB 2 / 4 CI

SR6: 2 MB 2 / 4 CI

SR7: 4 / 2 MB (on Sh2 – eye) 2 CI

SR8: 4 / 2 + (LBP R1) 2 CI

Using shuttle 2 join to next hole in bttm and tie a knot to secure.

SR9: 4 / 2 vsp 2 CI

SR10: 2 MB 2 / 2 – 2 CI

SR11: 2 MB 2 / 2 – 2 CI SS

Ch: 2 MB 2 MB 2 SS

SR12: 2 MB 2 / 2 + B (SR11) 2 CI

SR13: 2 MB 2 / 2 + B (SR10) 2 CI

SR14: 4 / 2 + (vsp SR9) 2 CI

Using shuttle 2 join to same hole in bttm as before and tie a knot to secure.

SR15: 6 / 3 + (next hole in bttm) 3 CI

SR16: 4 / 2 vsp 2 CI

SR17: 2 MB 2 / 2 – 2 CI

SR18: 2 MB 2 / 2 – 2 CI SS

Ch: 2 MB 2 MB 2 SS

SR19: 2 MB 2 / 2 + B (SR18) 2 CI

SR20: 2 MB 2 / 2 + B (SR17) 2 CI

SR21: 4 / 2 + (vsp SR16) 2 CI RW

Ch: 3 + (same hole in bttm as last join) 1 + (next hole in bttm) 3 RW

SR22: 4 / 2 vsp 2 CI

SR23: 2 MB 2 / 2 – 2 CI

SR24: 2 MB 2 / 2 – 2 CI SS

Ch: 2 MB 2 MB 2 SS

SR25: 2 MB 2 / 2 + B (SR24) 2 CI

SR26: 2 MB 2 / 2 + B (SR23) 2 CI

SR27: 4 / 2 + (vsp SR22) 2 CI

SR28: 6 / 3 + (same hole in bttm as last join) 3 CI

Using shuttle 2 join to next hole in bttm (same as R1 join) and tie a knot to secure.

SR29: 4 / 2 vsp 2 CI

SR30: 2 MB 2 / 2 – 2 CI

SR31: 2 MB 2 / 2 – 2 CI SS

Ch: 2 MB 2 MB 2 SS

SR32: 2 MB 2 / 2 + B (SR31) 2 CI

SR33: 2 MB 2 / 2 + B (SR30) 2 CI

SR34: 4 / 2 + (vsp SR29) 2 CI T & C to the top of R1 where it joins the bttm.
