**Abbreviations**

R	ring	Ch	chain	SR	split ring
Cl	close	RW	reverse work	vsp	very small picot
SS	switch shuttles	+	join	Lj	lock join
LCh	lock chain	btw	between	MB	move bead on core thread
FP	false picot (leave small bare thread space)			DNRW	do not reverse work
CTM	continuous thread method			Fvsp	false very small picot (tiny space)

**Materials required.** 2 colours of size 20 thread, 2 shuttles and 1 bead (size 11) for eye.

**Note** – for those who prefer front side/back side tating the text in italics and red indicates where the worker needs to use the second half of the ds first.

**Body** - Add bead to thread and wind Sh1 with 2¼ yards. Pull off a further 1½ yards and wind onto Sh2 - CTM. Leave bead on shuttle.
