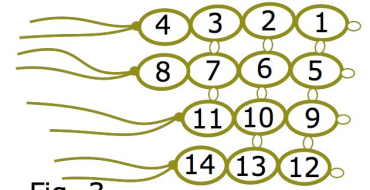

Fig. 3

Put part 1 to one side – you will not need it again until nearer the completion of the ?!@£&£ %**(!\$.

This colour will also not be needed again.

Before day 3 you can either un-wind these two shuttles and re-wind with your colour 2 choice OR just prepare 2 further shuttles.

You CAN wind these two CTM but I will be showing another way of starting the second shuttle without leaving any ends to sew in.
