LINK TO DAY 8

Day 9 - Tat It And See 2013 © Jane Eborall

Abbreviations

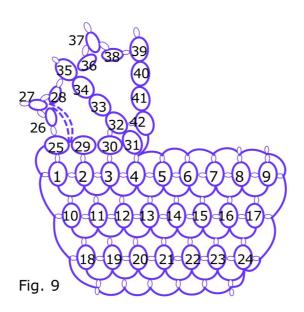

Ch chain vsp Very small picot Lj Lock join T & C Tie and cut

Using Sh2 – remember that the <u>Catherine Wheel Join c</u>an again be used instead of the lock join although a lock join is best for the first join to R4.

After Day 8 you needed to switch shuttles. The shuttle you start with on this section is the one CLOSEST to the main part (or SR32). IF you don't appear to have enough thread on your chain shuttle please to a shoe lace trick (tie a knot). It will not make a difference to the finished item.

Note:- don't miss the two vsp's in this section – you will need them later!

Ch: 6 Lj (R4) 3 Lj (R5) 6 Lj (R6) 6 Lj (R7) 6 Lj (R8) vsp 6 Lj (R9) vsp 4 Lj (next p R9) 10 Lj (SR10 or R17) 10 Lj (vsp R24) 4 T & C to base R24
