

Preparation.

Wind 5 yards of one colour to Sh1 and 2½ yards of the other colour to Sh2. Please refer to the introduction for help.

Abbreviations for today are

R	ring	Ch	chain	Cl	close	- or p	picot	sep
Sh1	shuttle 1	Sh2	shuttle 2	RW	reverse work	+	join	
sep	separated							

Note – for those who prefer front side/back side tatting the text in *italics and red* indicates where the worker needs to use the second half of the ds first.

All picots are normal sized.

To start a piece of tatting without knots I SUGGEST this method.
